(E): brothersmadeline@yahoo.com

A highly self motivated and intellectually curious college student currently seeking an internship with a technology group willing to provide me with experience and exposure in computer science. Aspiring to join an innovative technology firm with advanced digital solution offerings spanning a wide spectrum of industries. Willing to relocate and flexible as to working on site and remotely.

Education

Bachelors of Science in Computer Science

University of Missouri-Kansas City (August 2023-Present)

Expected Graduation Date: May 2025

Undergraduate Standing: Junior

Work History

Support Specialist (October 2022-May 2023)

- *University of Missouri Division of Information Technology*

Consultant (August 2022-May 2023)

- *University of Missouri Division of Information Technology*

Beverage Server (September 2023-Present)

- *Hollywood Casino at Kansas Speedway*

Business Owner (January 2024-Present)

- MO Reps – moreps.store

Key Projects/Initiatives/Assignments

- Enjoyed my role as a support specialist and worked in various zones throughout the entire University of Missouri campus to troubleshoot and fix problems within the Division of IT. Used different software to analyze problems and solve them in a short amount of time.
- Worked on troubleshooting within the division of information technology at the University of Missouri, assisted with customer service needs, and maintained computers/printers/labs at various locations across the campus.
- Created an online store (moreps.store) to sell shoes in the United States. Website allows users

to place orders and pay for them online, orders are then shipped to them once we confirm the order.
